

# Hygienically clean without the use of chemicals.

Time is money — particularly in commercial cleaning. The SG 4/4 steamer has an ingenious two-tank filling system allowing for continuous use. Steam cleaning can impressively remove up to 99.999% of bacteria without chemical. It is also ideal for cleaning kitchens and grout.

## 1 Two-tank system

- Fresh water tank can be continuously filled, saving time
- Only part of the water is heated at a time, for faster steam production
- Large four quart tank allows for long runtimes before refilling

## 2 VapoHydro system

- Our VapoHydro system allows for steam level adjustment to suit your individual task
- In addition to steam pressure, steam saturation can also be adjusted from full steam to hot water
- Hot water jet dissolves even the most stubborn of dirt

## 3 Accessory storage

- Store all sort of a variety of accessories on the machine
- Small parts will not be lost in the storage compartment
- Even the steam hose and wand can be stored on the machine

## 4 Hygienic cleaning

- Kill 99.999% of bacteria with steam instead of with chemicals
- Protect your guests and your employees by cleaning with water alone
- Save money by using only water to clean
